

# Conditions of entry

All members of the Stereoscopic Society are eligible to enter. Entry is free

Acknowledgement of a received entry and the results can be done by e-mail, but if you would prefer to receive this information by post, TWO stamped addressed envelopes for U.K. entries would be appreciated. If you enter the slide a return label with postage would also be appreciated. Prints are NOT returned unless specially requested

Entries submitted must be the work of the entrant. Entrants may not use the same images used in previous competitions, even if the format is changed. e.g. slides to prints. Any subject matter is acceptable, but judges will be looking for imaginative quality images which, in their opinion, are enhanced by being stereoscopic. Image titles will be announced to the selectors.

All reasonable care will be taken of the entries but the organizers cannot accept liability for any loss or damage to work submitted. Packaging must be adequate for the safe return of entries. Also, it is assumed that the permission is given to reproduce accepted entries for non-commercial purposes associated with the Society, and the International Stereoscopic Union, unless the box below is ticked. This possibly could include an ISU CODE show, which will be put on YouTube. Copyright, however, remains with the photographer.

The competition will be judged by a panel, and accepted entries may be shown by digital projection at Coventry, London and during the Annual Convention. For slides and prints this means digitising the images and some image manipulation may be necessary to aid the viewing of selected images.

To make the presentations more interesting, you are invited to send brief notes covering points of interest, such as where and how the photographs were taken. Such material would not be presented to the selectors, but used for the shows.

## 2020 Annual Competition

You can enter up to **five** images, from one or more of the following categories.

**1. Slides** 41x101 mm slides are accepted. Slide entries should bear the title on the front and the entrants name on the back.

**2. Prints** Prints can be submitted as:

A. Traditional Stereo prints of 3 ½”x7” (90x175mm) card mounts.

B. ViewMagic with a 4” (100mm) separation between homologue points.

**Please also** submit the original JPEG image, for use in the Competition show.

**3. Digital Images** These are images that have been produced with the aid of a computer. They can be submitted on a non-returnable CD or by email. Submitted images should be .jpg format for side-by-side parallel viewing. They can be any aspect ratio, but **should not include any black borders**. File size is limited to 6 Mbytes. Advice on correctly adjusting images can be found on the Society website under ‘Exhibitions’ and following the Mike Hillyard links. As this section attracts most entries it is divided into six subject headings marked u to z:

**u. People, Pets, and Domestic Animals, v. Scenery, w. Buildings Inside and Out, x. Creative and Imaginative Images, y. Man Made Objects, z. Natural History**

**4. Common Theme Images** You have the choice of entering up to 4 digital images on a common theme, such as a feature of life today, a noteworthy event, or perhaps how something is achieved photographically. These images are judged together as a group and given a single mark based on how interesting the selectors found the entry. They also count as a **SINGLE IMAGE** from the point of view of an entry, so you may submit **FOUR** further images for the competition. You are invited to write briefly on the chosen subject, relating this subject to the individual images. This will be read to the selectors.

### Image Titles:

After each title, please add (S) for slide,  
(P) for print, (Du,Dv,Dw,Dx,Dy or Dz) for Digital  
and (CTI) for Common Theme Images.
